

Charging Your Way: Stellantis Launches Free2move Charge to Make it 'Easy to Always Be Charged'

- **Complete charging ecosystem aims to deliver seamless electric vehicle (EV) charging and energy management for customers**
- **Free2move Charge embodies the e-ABC Promise: easy to Always Be Charged**
- **First products and services launching now in North America and expanding to Europe**
- **Free2move Charge is the first ecosystem of charging hardware, software and services under the new Stellantis Charging & Energy Business Unit, an accretive business supporting Dare Forward 2030**

AMSTERDAM, June 27, 2023 - [Stellantis](#) today launched Free2move Charge, a 360-degree ecosystem that will seamlessly deliver charging and energy management to address all EV customer needs, anywhere and in any way. Managed by the new Stellantis Charging & Energy Business Unit, Free2move Charge addresses electric vehicle customer needs at home, in their business and on-the-go.

“As the pace of mainstream EV adoption accelerates, our customers need us to be more than just a mobility provider,” said Ricardo Stamatti, Stellantis Senior Vice President, Charging & Energy Business Unit. “We are taking the lead in establishing a dedicated business unit that will support our bold electrification strategy and act as a natural extension of our iconic brands. Free2move Charge is the first product rolling out, exemplifying our purpose of delivering performance, value, sustainability and electrified mobility freedom for all.”

e-ABC Promise: easy to Always Be Charged

Making it easy to **Always Be Charged** (the e-ABC Promise), Free2move Charge also makes it smart, understanding users' needs and optimizing overall energy management to improve efficiency, reliability, and access, reducing the total cost of ownership and maximizing environmental benefits.

Working with a Free2move e-Genius team, customers will be able to create a personalized package they can change and adapt at any time during the ownership experience, allowing it to evolve and always be tailored to their needs. e-Genius support will be available first in Europe.

By removing barriers to battery electric vehicle ownership, including charging anxiety, Free2move Charge is a key tool to achieve the goals of the Stellantis [Dare Forward 2030](#) strategic plan, including reaching a 100% passenger car battery electric vehicle (BEV) sales mix in Europe and a 50% passenger car and light-duty truck BEV sales mix in the United States by 2030.

Free2move Charge: Built on Three Pillars

- **Free2move Charge Home** delivers private customers support with installation, financing, and warranty of home charging and other energy hardware and services. Options can range from AC charging cables and wall boxes today to Vehicle-2-Home, Vehicle-2-Grid, and complete energy management systems with cutting-edge features like touch-free wireless solutions and inductive robot charging under development for future releases.
- **Free2move Charge Business** tackles all hurdles as a one-stop-shop platform with a full suite of charging and energy services: early-on support, estimation of initial and future running costs, right-sizing of charging infrastructure, installation, maintenance, and public charging access while on the go.
- **Free2move Charge GO** guarantees seamless access to the largest possible curated network of public charging points through partners in North America, Europe, and other regions to be announced soon. In addition to access, payment, and 24-7 support, Free2move Charge GO will progressively launch leading features like Plug and Charge, reservations, loyalty programs, subscriptions, prepaid packages, single invoice/billing and even deliver a charge to a requested location when needed.

Free2move Charge will harness the power of the Stellantis Energy Cloud, seamlessly integrating with vehicle-branded mobile apps and the state-of-the-art STLA SmartCockpit platform launching in 2024 to deliver fast,

intelligent routes and charging recommendations to customers based on their actual usage and needs. Free2move Charge will guide Stellantis customers through an onboarding process to understand their individual needs, allowing for deep personalization and using AI learning to constantly improve its knowledge about the most convenient individual charging experience.

Free2move eSolutions, a Stellantis tech company, will continue to develop and provide industry-leading charging hardware and software that supports the Free2move Charge ecosystem, as well as non-captive customers, and work with other industry leaders to bring more EV charging solutions to market.

FORWARD-LOOKING STATEMENTS

This communication contains forward-looking statements. In particular, statements regarding future events and anticipated results of operations, business strategies, the anticipated benefits of the proposed transaction, future financial and operating results, the anticipated closing date for the proposed transaction and other anticipated aspects of our operations or operating results are forward-looking statements. These statements may include terms such as “may”, “will”, “expect”, “could”, “should”, “intend”, “estimate”, “anticipate”, “believe”, “remain”, “on track”, “design”, “target”, “objective”, “goal”, “forecast”, “projection”, “outlook”, “prospects”, “plan”, or similar terms. Forward-looking statements are not guarantees of future performance. Rather, they are based on Stellantis’ current state of knowledge, future expectations and projections about future events and are by their nature, subject to inherent risks and uncertainties. They relate to events and depend on circumstances that may or may not occur or exist in the future and, as such, undue reliance should not be placed on them.

Actual results may differ materially from those expressed in forward-looking statements as a result of a variety of factors, including: the impact of the COVID-19 pandemic, the ability of Stellantis to launch new products successfully and to maintain vehicle shipment volumes; changes in the global financial markets, general economic environment and changes in demand for automotive products, which is subject to cyclicalities; changes in local economic and political conditions, changes in trade policy and the imposition of global and regional tariffs or tariffs targeted to the automotive industry, the enactment of tax reforms or other changes in tax laws and regulations; Stellantis’ ability to expand certain of their brands globally; its ability to offer innovative, attractive products; its ability to develop, manufacture and sell vehicles with advanced features including enhanced electrification, connectivity and autonomous-driving characteristics; various types of claims, lawsuits, governmental investigations and other contingencies, including product liability and warranty claims and environmental claims, investigations and lawsuits; material operating expenditures in relation to compliance with environmental, health and safety regulations; the intense level of competition in the automotive industry, which may increase due to consolidation; exposure to shortfalls in the funding of Stellantis’ defined benefit pension plans; the ability to provide or arrange for access to adequate financing for dealers and retail customers and associated risks related to the establishment and operations of financial services companies; the ability to access funding to execute Stellantis’ business plans and improve its businesses, financial condition and results of operations; a significant malfunction, disruption or security breach compromising information technology systems or the electronic control systems contained in Stellantis’ vehicles; Stellantis’ ability to realize anticipated benefits from joint venture arrangements; disruptions arising from political, social and economic instability; risks associated with our relationships with employees, dealers and suppliers; increases in costs, disruptions of supply or shortages of raw materials, parts, components and systems used in Stellantis’ vehicles; developments in labor and industrial relations and developments in applicable labor laws; exchange rate fluctuations, interest rate changes, credit risk and other market risks; political and civil unrest; earthquakes or other disasters; risks and other items described in the Company’s Annual Report on Form 20-F for the year ended December 31, 2022 and Current Reports on Form 6-K and amendments thereto filed with the SEC; and other risks and uncertainties.

Any forward-looking statements contained in this communication speak only as of the date of this document and Stellantis disclaims any obligation to update or revise publicly forward-looking statements. Further information concerning Stellantis and its businesses, including factors that could materially affect Stellantis’ financial results, is included in Stellantis’ reports and filings with the U.S. Securities and Exchange Commission and AFM.
